

THE FUTURE IS  
**SMARTER.  
FASTER.  
SMALLER.**

## **THE FUTURE IS HERE.**

Ultra Optics announces its latest advancement in lens coating technology.

The new 54R sets a new standard with smarter technology and faster output, while taking up even less space!

---

Coating throughput up to and exceeding 160+ lenses per hour

---

LMS-integrated control system to customize the coating process job-to-job

---

Two coating reservoirs provide lab optimization for standard, tint or AR jobs in one machine

---

Digital control provides precision lens handling with updated wash/dry, coating and UV-light processes

## THE BOTTOM LINE IS... YOUR BOTTOM LINE

With so many notable improvements, it all comes down to the 54R saving you time and money.

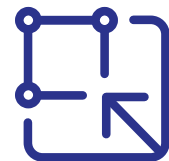

---

Optimized intelligence with remote diagnostics, job-to-job customization and LMS integration.

---

Speed and efficiency are critical to your bottom line. The 54R has faster speed, greater precision and more efficiency.

---

A smaller overall footprint helps maximize your valuable floorspace while reducing operating costs.

### Your *Ultra* Solution

Our innovation team continues to deliver better products that are *focused on your success.*
