INTRODUCING THE

ANTI-FOG SOLUTION

SAY GOODBYE TO FOGGING LENSES

Take back the freedom of a fog-free lifestyle.

Ultra Anti-Fog lens cleaner can be easily applied to any lens surface to clean and give a temporary anti-fog property. This product is perfect for the millions of people who experience fogging lenses. Whether at work or at play, this product can help alleviate the frustration and potential hazards that fogging can cause.

FAST & EASY TO APPLY

Follow these 5 easy steps and start experiencing fog-free lenses.

WORKS ON ALL LENS MATERIALS

Safe and effective to use on all lens materials including lenses with anti-reflective coatings. Most other products have been shown to not be effective on anti-reflective lenses.

MULTI-PURPOSE

Ultra Anti-Fog has many successful applications; from eyeglasses to goggles and safety glasses to face shields.

PROVEN RESULTS

Ultra Anti-Fog products work immediately after application. Most users note that the effect lasts for 24 hours up to 3 days.
